

**SaaS solution for Hospitals
to collect, store, manage
and transmit patient's
medical records.**

About us

ASKEP.net is a healthtech Cloud SaaS Hospital Information System (HIS) for public and private healthcare institutions in Ukraine. We've been working in Ukraine since 2017 and implemented the national program of digital transformation of the healthcare system. And we are a top-5 player of Ukrainian HIS market.

Our mission:

to ensure effective interaction between the doctor, the patient and the government.

300+

medical facilities

10K+

daily active doctors

4M+

patients

Product core features

for Ukrainian eHealth

- Registration of the healthcare provider in government eHealth system
- Registration of doctors in eHealth
- Signing of declarations of patients with doctor
- Electronic prescription
- Contracting of institutions with National Health Service of Ukraine

for Medical facilities

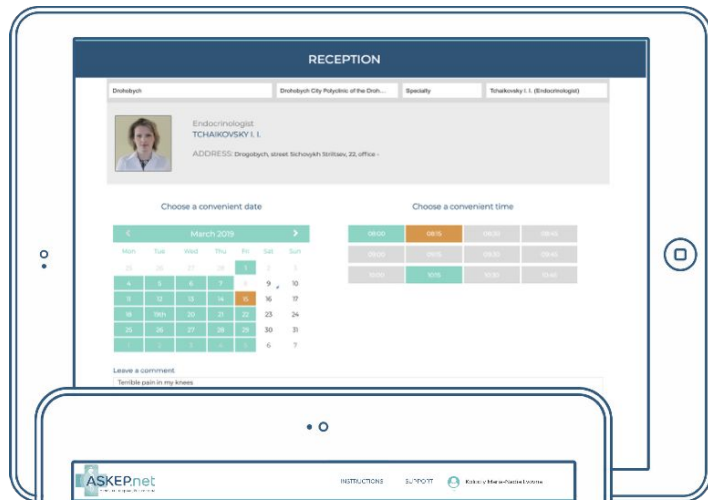

- Electronic appointment scheduling.
- Patient database.
- Review and update patient medical history.
- Laboratory and Diagnostic results.
- Prescription and referral.
- Formation of statistics and reporting.

for Patients

- Online booking of the appointment with a doctor.
- Personal profile with an electronic patient card (history of examinations, diagnoses, prescribed treatment).
- Signing declarations.
- Vaccination.

Appointment Scheduling

● Patient

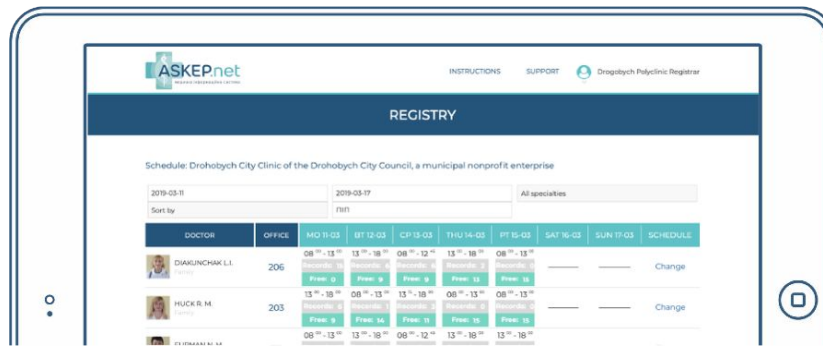

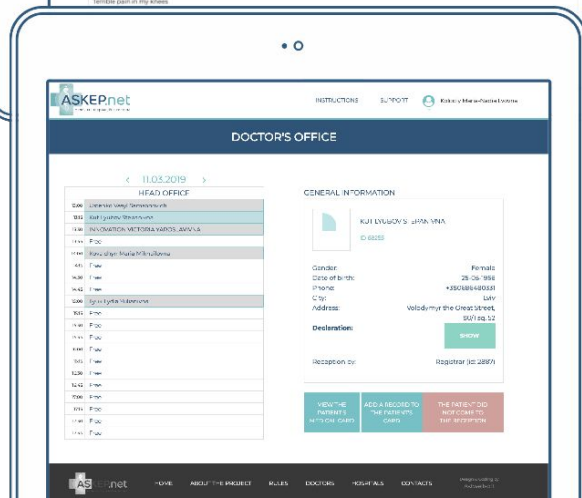

- Access to the medical history
- Scheduling appointment with a doctor
- Appointment reminder

● Doctor

- List of appointments
- Access to the patient medical history
- An extended list of templates for entering the results of a patient's appointment

● Reception

- Doctor's schedule management
- Appointments management

Electronic Health Records (EHR)

DOCTOR'S VISIT

Date of visit: 20.12.2018
Type: Advice
Specialty: Family
Institution: Family Office No. 4, KNP
"DROHOBITSK CITY POLYCLINIC" DMR
Doctor: Kolodiy M. L.

TREATMENT PLAN

1. Suprastin 1
tab. x 3 g. per day 10 days
2. Cuvette cream
2p. for the day on the spots around the eye
3. Prurysed cream
2-3r. for the day the whole body and face

Laboratory / Diagnostics

Laboratory / Diagnostics

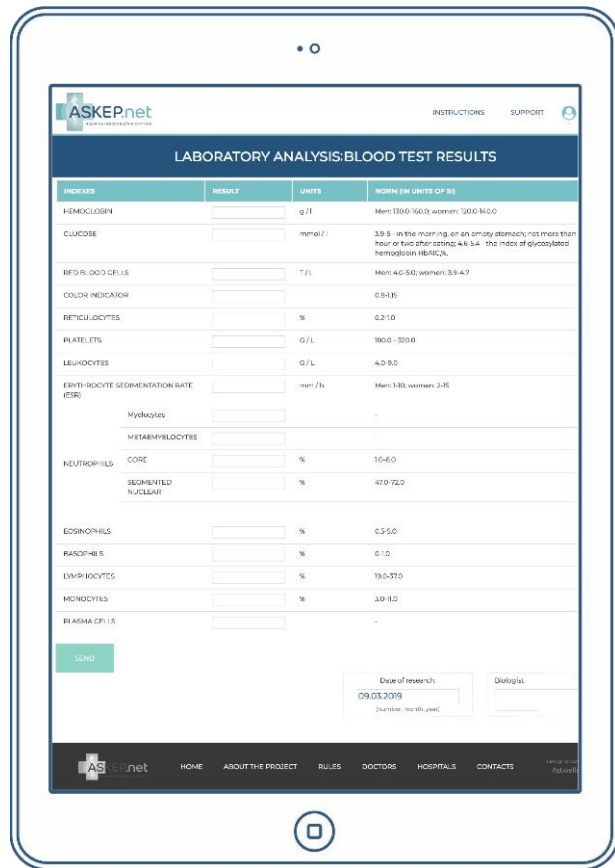

- Fill in patient data in a template form
- Customise or create own form templates

Doctor

- Access to the patient records from all medical facilities
- Attach ultrasound, ECG, X-ray, CT, MRI and add to them conclusion.
- Patient records management (print, save, send etc.)

Patient

- Records management (view, print, save, send etc.)

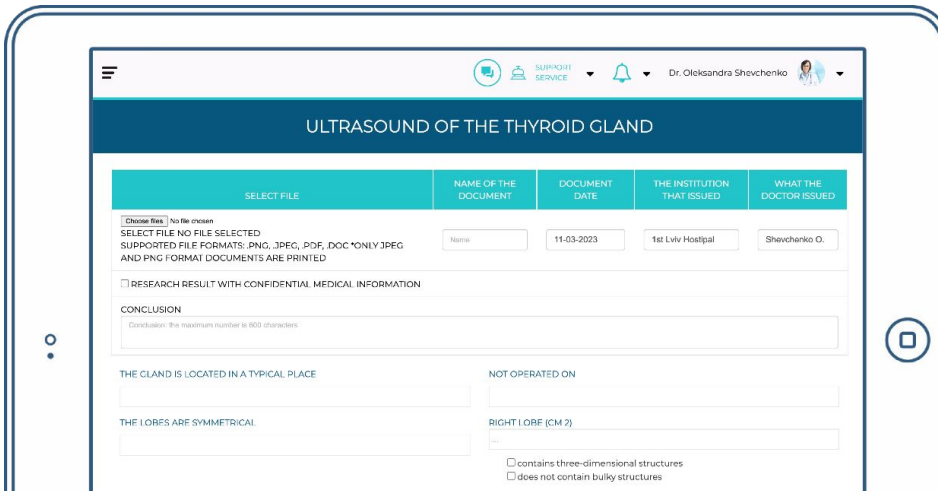

The screenshot shows a mobile application interface for ASKEPnet. The top bar includes the ASKEPnet logo, 'INSTRUCTIONS', and 'SUPPORT'. The main title is 'LABORATORY ANALYSIS: BLOOD TEST RESULTS'. Below this is a table with columns: INDEXES, RESULT, UNITS, and NORM (IN UNITS OF 50). The table lists various blood test parameters such as Hemoglobin, Glucose, Reticulocytes, Platelets, Leukocytes, Erythrocyte Sedimentation Rate (ESR), Neutrophils, Eosinophils, Basophils, Lymphocytes, Monocytes, and Plasma Cells. Each row has input fields for the result and units. At the bottom, there is a 'SEND' button and a section for 'Date of research' and 'Diagnosis'.

INDEXES	RESULT	UNITS	NORM (IN UNITS OF 50)
HEMOGLOBIN	<input type="text"/>	g / l	Men 130.0-160.0; women 120.0-150.0
GLUCOSE	<input type="text"/>	mmol / l	3.9-5.9 in the morning, on an empty stomach; not more than 7.8 mmol / l two hours after eating; 4.6-5.4 - the index of glycosylated hemoglobin (HbA1c).
RETICULOCYTES	<input type="text"/>	%	0.5-1.5
PLATELETS	<input type="text"/>	G / L	180.0 - 320.0
LEUKOCYTES	<input type="text"/>	G / L	4.0-9.0
ERYTHROCYTE SEDIMENTATION RATE (ESR)	<input type="text"/>	mm / hr	Men 1-10; women 2-15
NEUTROPHILS	<input type="text"/>	%	10-60
EOSINOPHILS	<input type="text"/>	%	0.5-5.0
BASOPHILS	<input type="text"/>	%	0-1.0
LYMPHOCYTES	<input type="text"/>	%	19.0-37.0
MONOCYTES	<input type="text"/>	%	3.0-10.0
PLASMA CELLS	<input type="text"/>	%	-

Date of research: 09.03.2019 (number, month, year)

Diagnosis:

The screenshot shows a mobile application interface for ASKEPnet. The top bar includes the ASKEPnet logo, 'INSTRUCTIONS', and 'SUPPORT'. The main title is 'ULTRASOUND OF THE THYROID GLAND'. Below this is a form with sections for 'SELECT FILE', 'NAME OF THE DOCUMENT', 'DOCUMENT DATE', 'THE INSTITUTION THAT ISSUED', and 'WHAT THE DOCTOR ISSUED'. The 'SELECT FILE' section has a 'Choose file' button and a message 'SELECT FILE NO FILE SELECTED'. The 'NAME OF THE DOCUMENT' section has a 'Name' input field. The 'DOCUMENT DATE' section has a date input field showing '11-03-2023'. The 'THE INSTITUTION THAT ISSUED' section has a dropdown menu showing 'Ist Livi Hospital'. The 'WHAT THE DOCTOR ISSUED' section has a dropdown menu showing 'Shevchenko O.'. Below these sections is a 'CONCLUSION' section with a text area for the conclusion. At the bottom, there are sections for 'THE GLAND IS LOCATED IN A TYPICAL PLACE', 'NOT OPERATED ON', 'THE LOBES ARE SYMMETRICAL', and 'RIGHT LOBE (CM 2)'. There are also checkboxes for 'contains three-dimensional structures' and 'does not contain bulky structures'.

SELECT FILE
